AMENDMENTS TO THE CLAIMS

- (Original): An absorbent product comprising cellulosic fibers reacted with an effective amount of a crosslinking agent in the presence of an effective amount of a C₄ C₁₂ polyol wherein the individualized intrafiber crosslinked cellulosic fibers are characterized by a Whiteness Index, (WI_{CDM-L}), greater than about 69.0.
- 2. (Original): The product of Claim 1 wherein the individualized intrafiber crosslinked cellulosic fibers have an L value greater than about 94.5.
- 3. (Original): The product of Claim 1 wherein the intrafiber crosslinked cellulosic fibers have an a value greater than about -1.55 and less than about -0.60.
- 4. (Currently amended): The product of Claim 1wherein 1 wherein the intrafiber crosslinked celluosic fibers have a b value less than about 8.5.
- 5. (Currently amended): The product of Claim 1 wherein the crosslinking agent is an α-hydroxy polycarboxylic acid.
- 6. (Original): The product of Claim 5 wherein the crosslinking agent is selected from the group consisting of malic acid, tartaric acid citric acid, tartronic acid, α -hydroxyglutaric acid, and citramalic acid and mixtures thereof.
- 7. (Original): The product of Claim 6 wherein the crosslinking agent is malic acid.
- 8. (Original): The product of Claim 6 wherein the crosslinking agent is citric acid.
- 9. (Original): The absorbent product of Claim 1 wherein the polyol is selected from the group consisting of acyclic polyols, alicyclic polyols, and a heterosides and mixtures thereof.
 - 10. (Original): The product of Claim 9 wherein the acyclic polyol is sorbitol.
- 11. (Original): The product of Claim 9 wherein the alicyclic polyol is myoinositol.
 - 12. (Original): The product of Claim 9 wherein the heteroside is maltitol.
 - 13. (Original): The product of Claim 9 wherein the heteroside is lactitol.
- 14. The product of Claim 1 wherein the intrafiber crosslinked cellulosic fibers have a brightness greater than about 79.0% ISO brightness.

- 15. (Original): The product of Claim 1 further comprising fluff pulp fibers.
- 16. (Original): The product of Claim 1 further comprising superabsorbent material.
- 17. (Original): The product of Claim 1 wherein the product is an infant diaper.
- 18. (Original): The product of Claim 1 wherein the product is an adult incontinence product.
- 19. (Original): The product of Claim 1 wherein the product is a feminine hygiene product.
- 20. (Original): The product of Claim 1 wherein the product is at least one of a tissue or towel.
